

PARANORMAL NOBODIES — Shooting Schedule Feasibility

Season 1 · Episodes 102–106 · analysis of the White one-liner dated 7/10/26 (35 board days, Sept 28 – Nov 13)

Prepared by **Josh Maas**, Producer

2-hub plan (South Shore + North Shore)

A feasibility pass over **all 35 scheduled days**, sorted into three tiers per the production walk-through. **Unmakeable (18)**: can't be finished as drawn — 40+ shots, two-plus company moves (half the day is spent moving), or a lot of night exterior (you can't beat the sun). **At risk (3)**: flagged — workable but very likely to run over. **The rest (14)** can most likely be made. Shot counts are minimums; the walk-through notes are shown verbatim.

How the tiers are set (production walk-through): UNMAKEABLE — 40+ shots (a fast day holds ~25), **or** two-plus company moves (each costs 1–2 hrs, so 2+ means half the day is moving, not shooting), **or** a lot of night exterior (limited darkness & relights — you can't beat the sun). **AT RISK** — one heavy factor short of that: a big shot count, a single move, or 3–4 night exteriors; workable but likely to run over. **The rest can most likely be made.** Shots = 3 per scene + 1 per cast member beyond 2, and are minimums — the massive night scenes run higher. Notes column: dark = walk-through note (verbatim), *grey* = *supplementary flags*.

THE THREE TIERS

Unmakeable (18): Days 1, 3, 9, 10, 12, 13, 15, 17, 19, 25, 27, 28, 29, 30, 31, 32, 33, 35.

At risk / flagged (3): Days 20, 21, 24.

Can most likely be made (14): Days 2, 4, 5, 6, 7, 8, 11, 14, 16, 18, 22, 23, 26, 34.

Heaviest shot days: Day 30 (61), Day 10 (58), Day 13 (53), Day 19 (51), Day 9 (50).

WHAT WOULD DE-RISK THE SCHEDULE

- Give the night-exterior blocks their own days: Days 9, 20, 24, 28 stack 5–7 night exteriors — those can't share a day with anything.
- Trim the >33-shot days or add time: split the doubles (Hospital | Psych D30, Gardner pool D10, Hell House party | Sandra's D12/13, Halloween Dance D19).
- Re-block the move-heavy back third (Days 25, 27, 28, 32, 33) to group scenes by location — every 2nd move is roughly a lost half-day.
- Second unit for inserts and the single-cast 1/8-page beats to pull load off the A-unit.
